

PowerLock

*DISTRIBUTION RATES MAY VARY

**TIRED OF HIGH ELECTRICITY BILLS DURING PEAK SEASONS?
WANT TO HELP IMPROVE AIR QUALITY?
THEN WGL ENERGY'S POWERLOCK IS FOR YOU!**

Electricity supply rates can vary from month to month, leaving you guessing about your monthly bill and disrupting your budget. Take control of your energy budget with WGL Energy's **PowerLock**, a new monthly subscription service for residential energy consumers. With PowerLock, you get a fixed monthly subscription price starting as low as \$19.99/month plus 100% renewable energy...regardless of weather or usage.

FIXED MONTHLY PRICE FOR 1-YEAR

LOCAL. TRUSTED. RELIABLE.

Pay same fixed electricity supply price every month, regardless of weather, and not worry about end-of-month adjustments. Your **PowerLock** supply price is based on your home's historical electricity usage provided by your utility. Your electricity utility remains responsible for reading your meter, billing and responding to emergencies. Your utility distribution charges may vary, but your **PowerLock** fixed supply price will not, and it is itemized separately on your monthly electricity bill.

Have peace of mind knowing you've chosen an award-winning energy supplier. Since 1996, WGL Energy is one of the largest, longest-serving energy suppliers in the Mid-Atlantic. We are a leader in competitive energy supply and environmentally friendly products. And, WGL Energy has an A+ rating with the Better Business Bureau.

PRESERVING THE WORLD FOR THE FUTURE

TWO FAST, CONVENIENT WAYS TO LOCK DOWN YOUR PRICE

PowerLock includes 100% renewable energy sourced from wind farms and helps improve air quality and the environment.

To obtain your customized price, all you need is your address to see if you qualify.
